Mileage Tax Registration & Installment Payments

For Operators of Trucks, Tractors and Trailers

Jesse White

Secretary of State

MONEY-SAVING PLANS FOR TRUCK OPERATORS

Dear Friend,

There are two options for truck operators to reduce the cost of operating their vehicles in Illinois: Mileage Tax Registration and installment payments. Following is a brief description of each:

- Trucks, tractors and trailers traveling a limited number of miles within Illinois may qualify for Mileage Tax Registration. Fees under this plan are about half the regular Flat Weight Tax Registration.

- Flat Weight and IRP registration fees for trucks and tractors can be paid in two installments. Deferring 50 percent of your payment for six months may help you with cash-flow concerns. Also, if you provide a certificate of deposit for security, you will receive the interest.

By following these procedures, you can save time and money in securing the registration that best meets your needs.

For more information, contact my office's Commercial & Farm Truck Division at 217-785-1810 or 217-524-2328, or visit www.cyberdriveillinois.com.

Mileage Tax Registration

Mileage Tax Fees

Fees are determined by the gross weight of the vehicle and number of miles driven. Miles allowed depend on the weight of the vehicle and load (see chart). Trucks and trailers exceeding the mileage limitations are charged additional fees based on excess mileage rates. All miles generated under a Mileage Tax Registration must be reported.

Security for Excess Mileage

Surety bonds of $500 per vehicle are required as a guarantee of payment of excess fees. Such bonds must be from surety companies approved by the Illinois Department of Insurance. The name on the bond must be identical to the name on the registration application. Bonding companies must attach a power of attorney and acknowledgement of surety to each bond.

Mileage Records

Vehicles with Mileage Tax Registration must have working odometers. Trailers are required to have hub-o-meters. Truck operators must maintain beginning and ending odometer readings for each fiscal year (July 1 — June 30). These records must be maintained for a three-year period and are subject to audit. Truck operators also are required to maintain daily mileage records. Summaries of these records must be submitted semiannually to the Secretary of State's office. Forms for reporting semiannual mileage are provided and must be returned respectively by Jan. 10 and July 10. A Mileage Tax Registration is subject to suspension or revocation for failure to report mileage or for operating a vehicle with a disconnected or broken odometer.

Mileage Registration Information

Mileage Tax Registration is binding for the fiscal registration year. Therefore, reclassification to Flat Weight Tax Registration is not permitted during the effective year. Mileage Tax Registration license plates cannot be transferred to a vehicle already registered with this type of plate.

Installment Payments

Installment payments are accepted for: a) International Registration Plan (IRP) and b) Flat Weight Tax fiscal year. This payment plan applies only to trucks and tractors; trailers are not eligible. Installment payments for IRP registration apply only to the Illinois fee and not the foreign fee.

Trucks and Tractors

Installment payments require that 50 percent of the fee be paid at the time of registration. The remaining 50 percent must be paid within six months after registration begins. Prorate vehicles that register on a calendar-year basis would owe the second installment by July 1 of the registration year. IRP vehicles would owe the second installment by Oct. 1. Fiscal vehicles, such as trucks and tractors with Flat Weight Registrations, would owe the second installment by Jan. 1.

Security Requirements

Securities are required for all second installments and must be surrendered to the Secretary of State's office at the time of registration. They may be in the form of surety bonds or single maturity certificates of deposit. A bond must be issued by a surety company approved by the Illinois Department of Insurance.

A single maturity certificate of deposit, payable to the Secretary of State, can be issued by any authorized Illinois banking institution. However, a certificate's maturity date must not exceed the due date of the second installment. Any excess amount above the required fees, including accrued interest from certificates of deposit, are returned to the owner. Installment plan participants are liable for the entire second installment, even if their trucking operations cease during the effective year. Truck operators may arrange for installment payments at the following Secretary of State locations:

Commercial & Farm Truck Division
